DELIVERED

TALKS/

PRESENTATIONS

(\*29 INVITED)

84. Talk at the Kavli Astrophysics Symposium 2026 **Cambridge, UK** (Sept 2026)
83. Talk and session chair at the FRB 2026 conference, **Guiyang, China** (July 2026)
82. \*Seminar at Department of Astronomy, **Tsinghua University**, Beijing (July 2026)
81. Talk at the BlackHolic 2026 conference, **Oxford University, UK** (March 2026)
80. \*Astrophysics seminar, **Washington University**, St. Louis, MO (Oct 2025)
79. 22nd AAS-High Energy Astrophysics Division meeting, St. Louis, MO (Oct 2025)
78. \*Black-board talk, Frontiers of Relativistic Plasma Physics, **KITP, USA** (Sep 2025)
77. \*Overview of FRB emission mechanisms, FRB 2025 conference, **McGill, Canada** (July 2025)
76. Seminar, **Inter-University Center for Astronomy & Astrophysics**, Pune (June 2025)
75. \*Astrophysics colloquium, **Tata Institute of Fundamental Research**, Mumbai (May 2025)
74. Astrophysics and Relativity seminar, **International Center for Theoretical Sciences**, Bangalore (May 2025)
73. Relativistic Magnetospheres workshop, **Ecole De Physique Des Houches**, France (April 2025)
72. Magnetic fields around Compact Objects workshop, **Perimeter Institute**, Canada (March 2025)
71. Fast Radio Burst Frontiers workshop, **Carnegie Mellon University**, USA (March 2025)
70. \*Talk at the XOC group meeting **Stanford, CA** (Sept 2024)
69. Talk at the High-energy plasma phenomena in astrophysics workshop **MIAPbP, Munich, Germany** (Sept 2024)
68. Graduating student colloquium, **Columbia University**, NY (April 2024)
67. \***AXIS** seminar series (April 2024)
66. 21st AAS-High Energy Astrophysics Division meeting, Texas (April 2024)
65. \*Seminar, Simons Collaboration on Extreme Electrodynamics of Compact Object Sources (**SCEECS**) (Feb 2024)
64. \*Astroplasmas seminar, **Princeton University**, NJ (Dec 2023)
63. \*CIERA Theory seminar, **Northwestern University**, IL (Nov 2023)
62. JSI workshop on ‘Winds throughout the Universe’, **Annapolis, MD** (Oct 2023)
61. \*Theoretical astrophysics group board talk, **Carnegie Observatories**, CA (Sept 2023)
60. \*Seminar, **Syracuse University**, NY (Sept 2023)
59. \*Review talk at Astrophysics of Fast Radio Bursts II workshop (+session chair), **CCA, Flatiron Institute**, NY (Sept 2023)
58. \*Colloquium, **National Center for Radio Astrophysics**, Pune, India (June 2023)
57. \*Astrophysics seminar, **Tata Institute of Fundamental Research**, Mumbai (May 2023)
56. \*‘Transient Tuesday’ talk, DARK, Niels Bohr Institute **Copenhagen**, Denmark (May 2023)
55. \*Discussion chair, Fast Radio Burst Follow-Up workshop, **University of Toronto** (April 2023)
54. \*High energy astrophysics seminar, **Hebrew University of Jerusalem**, Israel (March 2023)
53. \*Seminar, Astrophysics Research Center of **The Open University**, Israel (March 2023)
52. \*High energy astrophysics meeting, Black Hole Initiative, **Harvard**, MA (Feb 2023)
51. Cosmic transients lab seminar, Center for Astrophysics, **Harvard**, MA (Feb 2023)
50. High Energy Astrophysics seminar, Center for Astrophysics, **Harvard**, MA (Feb 2023)
49. FRB Taiwan 2023, National Chung Hsing University, Taichung **Taiwan** (Feb 2023)
48. \*Workshop on ‘Overcoming disconnects in the understanding of accreting black holes’, **Lorentz Center, Leiden**, The Netherlands (Jan 2023)
47. HEX-P black hole binaries, **science working group** presentation (Dec 2022)
46. \*CCAPP seminar, **Ohio State University**, OH (Nov 2022)
45. 64th APS Division of Plasma Physics annual meeting, **Spokane, WA** (Oct 2022)
44. Review talk on Observations of FRBs, **CCA, Flatiron Institute**, NY (Oct 2022)
43. \***AXIS** ‘compact objects and supernova remnants’ **science working group** (Oct 2022)
42. \*Astrophysics seminar, **Cornell University**, NY (Sept 2022)
41. \*AGN seminar at **NASA** Goddard Space Flight Center, MD (Sept 2022)
40. **NASA** Time Domain and Multi-Messenger (TDAMM) Initiative Workshop, **Annapolis, MD** (Aug 2022)
39. FRB 2022 meeting, IAUGA, **Busan**, South Korea (Aug 2022)
38. Summer BLAST workshop, Black Hole Initiative, **Harvard**, MA (July 2021)
37. **AXIS** ‘Time-Domain and Multi-Messenger Astronomy’ **science working group** (July 2022)
36. Special pizza lunch seminar, **Caltech**, CA (June 2022)
35. Seminar at **Carnegie Observatories**, CA (June 2022)
34. 240th meeting of the American Astronomical Society, **Pasadena, CA** (June 2022)
33. Workshop on Relativistic Plasma Astrophysics, **Purdue University**, IN (May 2022)
32. Compact objects group meeting at **CCA, Flatiron Institute**, NY (April 2022)
31. \*Kapteyn Astronomical Institute, **Groningen**, The Netherlands (April 2022)

30. 19th AAS-High Energy Astrophysics Division meeting, **Pittsburgh, PA** (March 2022)
29. Brown bag lunch seminar, **Massachusetts Institute of Technology**, MA (Feb 2022)
28. Winter BLAST workshop, Black Hole Initiative, **Harvard**, MA (Dec 2021)
27. Gothamfest, **CCA, Flatiron Institute**, NY (Dec 2021)
26. Kavli-IPMU workshop on particle acceleration by reconnection, **Tokyo**, Japan (Nov 2021)
25. 9th Microquasar workshop, **Cagliari**, Italy (Sept 2021)
24. Astrofest, **Columbia University**, NY (Sept 2021)
23. High-energy plasma phenomena in astrophysics, **Munich**, Germany (July 2021)
22. FRB 2021 conference (online) (July-Aug 2021)
21. \*Princeton astro-coffee, **Princeton**, NJ (July 2021)
20. 'Midwest Magnetic Fields' Workshop, **Wisconsin-Madison**, (June 2021)
19. \*CHIME/FRB collaboration, **McGill**, Canada (May 2021)
18. \*Seminar at the **Institute of Astrophysics - FORTH**, Greece (April 2021)
17. Compact objects group meeting at **CCA, Flatiron Institute**, NY (March 2021)
16. **Kyoto** FRB meeting, **Yukawa Institute for Theoretical Physics** (Feb 2021)
15. Compact object group meeting, **TIFR**, Mumbai (Dec 2020)
14. 62nd Annual Meeting of the **APS Division of Plasma Physics** (Nov 2020)
13. Compact objects group meeting, **CCA, Flatiron Institute**, NY (June, Oct, Nov 2020)
12. Plasma astrophysics summer program, **CCA, Flatiron Institute**, NY (July 2019)
11. Theoretical High Energy Astrophysics seminar, **Columbia University** (June 2019)
10. Graduate Seminar, **Columbia University**, NY (Feb, April 2019)
9. Research Seminar, **Columbia University**, NY (Dec 2018)
8. Pizza lunch talk, **Columbia University**, NY (Oct 2018, 2022)
7. *NuSTAR* SOC group meeting, **Caltech**, CA (Sept 2017)
6. Group presentation at **NRAO Green Bank Observatory**, WV (Sept 2017)
5. 16th AAS-High Energy Astrophysics Division meeting, **Sun Valley**, ID (March 2022)
4. Visiting Student Program ceremony, **University of Alberta**, Canada (July 2017)
3. Lunch talk at **University of Alberta**, Canada (June 2017)
2. 'Wide band X-ray spectro-temporal studies', **TIFR**, Mumbai, India (Jan 2017)
1. **IISER Bhopal** Physics department symposium (Nov 2015)

MENTORING Total: 9 students

- *Ningyue Fan*; **Ph.D.** student, Stanford University (Fall 2025-)
- *Christopher Farias*; **undergraduate** student, San Diego State University (Summer 2025)
- *Kohki Uno*; **Ph.D.** student, Kyoto University (1 paper) → postdoc at Columbia University (Summer 2024)
- *Arnab Kundu*; **masters** thesis student, IISER Kolkata (2021–2022)
- *Akash Vani*; Pune University → Masters at Heidelberg University → Ph.D. student at MPA, Garching (2019–2020)
- At Columbia University:
  - *Sanya Gupta*; **undergraduate** research projects (2 papers) → Ph.D. student at Stanford University (2022–2025)
  - *Shifra Mandel*; **graduate** mentor-mentee program (2021–2022)
  - *Shuhan Zhang*; Women in Science at Columbia **undergraduate** mentorship program → Ph.D. student at UC San Diego (2021)
  - *Bhairavi Chandrasekhar*; **undergraduate** summer internship (2020)

TEACHING At Columbia University:

- **Head TA** of the Astronomy department (2020–2021)
- **Instructor** for undergraduate Intro to Astronomy lab courses (Fall 2019, Spring 2020)
- **Teaching Assistant** for 2 undergraduate (non-major) courses (Fall 2018, Spring 2019)
- **Guest lectured** for ASTR UN1403 (in lieu of Prof. David Helfand) (Feb 2020)
- **Advanced track** in Columbia CTL's [Teaching Development Program \(TDP\)](#) (2018–2024)
- Completed CTL's [Innovative Course Design Seminar](#) (2021)

Outside Columbia University:

- Selected as a **Lead instructor** at the Yale Young Global Scholars (YYGS) program **Yale University**, New Haven, CT (Summer 2020; postponed due to Covid-19)
- Trained to incorporate **inquiry-based learning techniques** in STEM education through the [ISEE—Professional Development Program \(PDP\)](#), **UC Santa Cruz** (March–Sept 2019)
- [Designed and taught an inquiry activity](#) on statistics, **UC Los Angeles** (Sept 2019)

- Numerical tools: Particle-In-Cell, Magnetohydrodynamical simulations
- Telescope data handling: *AstroSat*, *Swift*, *RXTE*/PCA, *NuSTAR*, *NICER*, *XMM-Newton*, NCRA-GMRT, NRAO-GBT (Astrid, CLEO)

## SCIENCE OUTREACH

1. Public outreach talk during KIPAC community day, Stanford University (April 2025)
2. Research career in astrophysics for undergraduates at IISER Bhopal (Jan 2025)
3. [KIPAC public outreach talk](#), Stanford University (Dec 2024)
4. Co-organized [astronomy outreach activities](#) at Columbia University for the South African academic achievers program (750 high-school students) (Oct 2022)
5. Talk on introduction/orientation to summer research, for undergraduate researchers at Columbia University (June 2022)
6. Popular talk on black hole X-ray binaries at IISER Bhopal Astronomy club (Oct 2021)
7. [Mentored the students of Democracy Prep High School](#), Harlem, NYC, on the foundations of computer coding (Fall 2021)
8. Research career in astrophysics for undergraduates at IISER Bhopal (April 2021)
9. Delivered a lecture on science with space-based X-ray telescopes, for high-school students at *Frontiers of Science*—the annual outreach program at TIFR, Mumbai. (Nov 2017)
10. Organized a tour of GMRT for TIFR–Visiting Summer Research students (June 2016)
